

Northern Business Products has joined forces with Innovative Office Solutions

We're teaming up for a brighter future, combining the capabilities and experience from both companies to create a stronger offering for our customers.

Local Strength - This partnership retains the local locations, people and management of Northern Business Products, and adds new capabilities as part of Innovative. Innovative has a 20-year history in the Midwest as a Minnesota-based company with a commitment to supporting our local communities.

More Solutions for You - Being connected to Innovative brings many new capabilities, technology, and product options to help you meet your goals.

We'll be working throughout 2021 to bring our companies together and bring new capabilities to you. One of the first areas we're working on is taking advantage of having more locations throughout Minnesota, Wisconsin and the Dakotas to have a stronger geographic presence for improved deliveries and local representation.

You will continue to work with the same team that you do today, and I'll keep you updated as things progress, we're very excited about the possibilities this will bring to our continued partnership.

About Innovative Office Solutions

Innovative Office Solutions is a progressive, woman-owned, provider of office productivity solutions. Through a full portfolio including office products, furniture & design services, facility & breakroom supplies, print & graphic design, promotional products and technology solutions, Innovative is more than just a name...it's the culture.
